Research Experience

Lab Manager for Akira Omaki at the University of Washington
  1 year: duties included managing the Language Development and Processing Lab, running eye-tracking experiments that investigated syntactic processing in adults and children, and analyzing behavioral data in R.

Research Assistant for Jesse Harris at UCLA
  5 quarters: duties included running subjects through eye-tracking and self paced reading paradigms, training 5 undergraduate students on experimental protocol, and collaborating on a project that tested lexical retrieval in online processing as a function of sentence context.

Research Assistant & PROPS Scholar for Catherine Sandhofer at UCLA
